LETTER DATED 12 NOVEMBER 1993 FROM THE PERMANENT REPRESENTATIVE  
OF ITALY TO THE UNITED NATIONS ADDRESSED TO THE PRESIDENT OF THE  
SECURITY COUNCIL

I have the honour to transmit to you the latest version, dated 12 November 1993, of the "adjusted timetable of urgent steps to implement Security Council resolutions 822 (1992), 853 (1993) and 874 (1993)".

The said document has been submitted by the Chairman of the Council on Security and Cooperation in Europe (CSCE) Minsk Conference on Nagorny Karabakh, the Honourable Mario Raffaelli, to the parties to the conflict today, with a request that they should communicate their acceptance by 22 November 1993, at 1200 hours Moscow time.

Upon receiving the consent of the parties, Mr. Raffaelli would immediately put actual dates on the timetable and inform the parties accordingly.

I would appreciate it if the present letter and the annexed timetable could be circulated as a document of the Security Council.

(Signed) F. Paolo FULCI  
Permanent Representative

Enclosure

Adjusted timetable of urgent steps to implement Security Council  
resolutions 822 (1993), 853 (1993) and 874 (1993)\*

The following urgent steps will be implemented by the parties to the conflict. In the context of the timetable, the term "parties to the conflict" refers to the Governments of Armenia and Azerbaijan and to the leadership of Nagorny Karabakh, each according to its own role in the conflict. The Azeri interested party of Nagorny Karabakh will continue to have a role in the negotiations towards a peaceful settlement of the conflict. The terms "party to the conflict" and "leadership of Nagorny Karabakh" do not imply recognition of any diplomatic or legal status under domestic or international law.

The parties to the conflict will continue to make all advance technical preparations including by direct contacts between them, to ensure that the actions for which they are responsible can be accomplished according to the present timetable. They will coordinate closely with the head of the CSCE verification or monitor mission as soon as he arrives in the region to demonstrate that all necessary preparations have been made.

Technical problems that may delay implementation of any step of the timetable will not affect the obligation of the parties to the conflict to carry out the subsequent steps of the timetable. The technical nature of such problems will be verified by the head of the CSCE verification or monitor mission.

Violations of the arrangements agreed within the present timetable will be promptly reported by the relevant CSCE mission to the Chairman-in-Office of CSCE, along with a factual analysis, with a view to enabling CSCE to take the appropriate measures, including the possibility of reporting violations and making recommendations to the Security Council. In these cases, an emergency meeting of the Minsk Group may be called by the Chairman.

By signing the present timetable, the parties to the conflict confirm that they have agreed to continue to observe a complete and durable cease-fire at least until the opening of the Minsk Conference. Prior arrangement of such a cease-fire could establish an effective basis for this confirmation and the opening of the Minsk Conference and its ultimate success.

The opening of the Minsk Conference can in no way be interpreted as implying acceptance or recognition of the situation on the ground. Questions relating to or arising from the conflict and not addressed in the present timetable (including withdrawal or displaced persons/refugee questions such as Lachin, Shusha/Shushi, Shaumian/Goranboy and the enclaves) will remain open and are to be resolved at the Conference.

---

\* The texts of the resolutions are annexed to the present timetable as essential guidelines.

The parties to the conflict will, as soon as possible, exchange lists of all detainees (prisoners or hostages) being held, whether by authorities or private persons, and all available information on persons who have died in their custody. They will also exchange lists of missing persons, with a view to receiving all available information concerning their fate. The parties will immediately take all necessary action to facilitate access by the International Committee of the Red Cross (ICRC) to all detainees (prisoners or hostages).

The parties to the conflict recognize the right of every displaced person/refugee to return to his/her home of his/her free will, in security and dignity. They shall endeavour to create secure conditions that will permit the voluntary and generally balanced return of all displaced persons/refugees who wish to return to their homes. All possible assistance will be provided for their return.

Cessation of military activities and hostile acts, completion of withdrawals and restoration of communications and transportation as foreseen in this timetable will contribute to the creation of the necessary conditions for the voluntary return of displaced persons/refugees to their homes in security and dignity.

In the present timetable the term "withdrawal" is to be understood as withdrawal to the relevant segment of the 1988 district borders.

  - (c) Restoration of communications and transportation;
  - (d) Creation of conditions for the return of displaced persons/refugees to their homes in security and dignity;
  - (e) Opening of the Minsk Conference.

The announcement should also mention the arrival of the CSCE verification mission to the region and the commitment of the parties to cooperate with it, the positive perspective opened up for the region by the beginning of the process, the need for a spirit of reconciliation and peace, a commitment to observe strictly the terms of the timetable and the readiness of each party to punish those responsible on its own side in case of violations.

Annex I

Definition of the area of conflict

The terms used in the present annex do not imply recognition of any diplomatic or legal status under domestic or international law.

The area of conflict includes the following:

- (a) All territory east of Armenia, south of the Georgian frontier and the southern bank of the Koura river and the Mingechaurskoe Reservoir and north of the northern bank of the Arax river, excluding the territory east of 48 longitude;
- (b) A strip of land having a width of about 5 kilometres on each side along the border between Armenia and the Azeri province of Nakhichevan;
- (c) A strip of land having a width of about 20 kilometres on the Armenian side of the remaining international border between Armenia and Azerbaijan;
- (d) Airfields, wherever located, under the control of the parties to the conflict at which combat or other aircraft used for military purposes can be based. (See attachments with map of A, B and C areas and list of airfields.)

Possible overlappings due to the application of the above criteria do not cause an increase in the area of conflict.

As an exception to the normal regime of the area of conflict, movements of unloaded weapons (including heavy weapons after reactivation) and personnel will be permitted, subject to prior notification to a CSCE mission of such reactivation and movement, in the city of Stepanakert, along the main road from Stepanakert north to Mardakert and south to Hadruth and 1 kilometre on both sides of the road. Ammunition should be transported in separate convoys.

Normal border services or installations on borders with third countries shall be exempted from monitoring.

While monitors cannot be present in all locations at all times, they have the right to visit any part of the area of conflict at any time, for the accomplishment of their duties.

The monitoring area includes the area of conflict as defined in subparagraphs (a) to (d) above, as well as any other area on the territories under the control of the parties to the conflict as necessary for the monitoring mission to carry out the tasks specified in point 1 of the terms of reference.

Annex II

Guidelines for a joint coordination commission

1. In order to facilitate the resolution of technical military issues and other technical issues arising from the day-by-day implementation of the timetable and other arrangements concluded during the peace process, a joint coordination commission (JCC) shall be established in the monitoring area among all the parties to the conflict under the chairmanship of the head of the relevant CSCE mission and for the duration of that mission.
2. The purpose of JCC shall be purely practical. Within the framework of its tasks, it will provide an opportunity for direct contacts between the parties. Its existence, composition and activities shall not imply recognition of any legal status of its parties under domestic or international law.
3. In the early stages of the process, JCC shall contribute to ensuring an effective de-escalation and interruption of military activities, the identification of uncontrolled military formations and the continued observance of the cease-fire.
4. JCC shall strive to improve the exchange of information among the parties, as well as the synchronization of actions by them.
5. JCC shall be convened by its Chairman on a regular basis, and whenever required. Items to be discussed will be determined by the Chairman, taking due account of issues brought to his attention by any participant.
6. JCC will be composed of the parties to the conflict. The representative of the Azeri community of Nagorny Karabakh shall participate in the discussion of those problems which concern that community directly.
7. JCC shall normally meet at the relevant CSCE mission's headquarters. Its Chairman may decide to convene it elsewhere in the monitoring area, whenever required.
8. The JCC proceedings and any conclusion on specific questions may be recorded under the Chairman's responsibility.
9. Each party to the conflict shall facilitate all travel and activities relating to JCC and ensure the security and safety of JCC participants in connection with such travels and activities, within the territory under its own control.
10. If necessary, the present guidelines may be reviewed by the Minsk Conference or its working groups.
